EDUCATION

Bachelor of Technology, Computer Science & Engineering

2024 – 2028

ITS Engineering College, Greater Noida (Dr. A.P.J. Abdul Kalam Technical University)

EXPERIENCE

Software Development Intern | Privault.AI

Jun 2026 – Jul 2026

AI-powered Privacy & DPDP Compliance Platform

- Built and shipped responsive UI components for the official company website and core platform using React, TypeScript, and Tailwind CSS, improving load performance and cross-device consistency.
- Contributed frontend modules supporting Consent Management, Data Discovery & Classification, and the Compliance Dashboard within the Privault.AI DPDP compliance suite.
- Collaborated with the engineering team through Git-based version control, code reviews, and sprint planning to ship features on an agile workflow.
- Debugged and optimized existing components, reducing UI inconsistencies and improving overall application responsiveness.

PROJECTS

Trash2Treasure

[React](#) · [Node.js](#) · [Express](#) · [MongoDB](#)

- Built a full-stack marketplace enabling users to donate, sell, and exchange reusable items, encouraging sustainable waste management.
- Designed a listing and browsing interface with search/filter support, streamlining item discovery for buyers and sellers.

Urban Guardian

[React](#) · [Node.js](#) · [Google Maps API](#) · [JavaScript](#)

- Developed a personal safety platform with SOS alerts and live location sharing, using the Google Maps API for real-time tracking.
- Architected a scalable, responsive frontend to handle concurrent location updates with minimal latency.

AI Recipe Recommender

In Progress

[Python](#) · [FastAPI](#) · [React](#) · [SQLAlchemy](#) · [MySQL](#)

- Building a recommendation engine that suggests recipes from a user's available ingredients via a FastAPI REST backend.
- Integrating a relational schema (MySQL + SQLAlchemy) with a React frontend for ingredient input and recipe browsing.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Vite, Responsive Design, Component Architecture

Backend: FastAPI, Node.js, Express.js, REST APIs, SQLAlchemy

Databases: MySQL, PostgreSQL, MongoDB

Tools: Git, GitHub, Docker, Linux, Postman, VS Code, Figma

ACHIEVEMENTS

- Selected as Software Development Intern at Privault.AI, an enterprise AI privacy & compliance platform.
- Built and shipped the official company website for a real, operating organization.
- Delivered multiple independent full-stack applications spanning sustainability, safety, and AI-driven recommendation systems.

CERTIFICATIONS

- Full Stack Engineering Program
- Data Structures & Algorithms with C
- Developing Modern Applications with AWS AI and Generative AI Services (Jul 2026)
- Hands-On AI: Vibe Coding with Cline
- JavaScript Certification
